RAILROAD COMMITTEE
CHAMBER OF COMMERCE OF THE UNITED STATES
WASHINGTON, D. C.
ORGANIZATION OF
WAR TRANSPORTATION CONTROL

The United States government now controls and operates the greatest transportation system in the world. In a proclamation issued December 26, 1917, the President "took possession and assumed control of each and every system of transportation (in the United States) and the appurtenances thereof *** whether operated by steam or electric power, including also terminal companies and terminal associations, sleeping and parlor cars, private cars and private lines, elevators, warehouses, telegraph and telephone lines and all other equipment and appurtenances commonly used upon or operated as a part of such rail or combined rail and water systems of transportation;— to the end that such systems of transportation be utilized for the transfer and transportation of troops, war material and equipment to the exclusion, so far as may be necessary, of all other traffic thereon". At the same time the President directed that "the possession, control, operation and utilization of such transportation systems" shall be exercised by W. G. McAdoo, who was appointed Director General of Railroads.

Railroad Control Bill

The Railroad Control Bill which became a law on March 21, 1918, defines the terms on which 168 railroad systems and 553 short lines are operated by the government. It expressly declares that this law is emergency legislation enacted to meet war conditions and is not to be regarded as indicating in any way the future policy of the government with respect to the railroads. The law provides that all of the railroads and waterways taken over by the government shall be operated for the period of the war and for 21 months thereafter as a single national system of transportation; that the owners shall receive as compensation for the use of their property a standard return equal in amount to the average net operating income for the three year period from June 30, 1914, to June 30, 1917; that the President shall have authority to initiate changes in existing rates, fares, charges and classifications when in his opinion more revenue is needed by the roads; but that the Interstate Commerce Commission shall have final authority in the making of rates, provided that it gives due consideration to the certificate of the President that increased revenues are necessary in order to defray expenses and to pay the agreed compensation to the owners of the roads.

Transportation Systems Included

The railroads operated by the Administration include all of the trunk lines and many of the short lines in a system that has 260,000 miles of track, 66,000 locomotives, 2,500,000 freight cars, 55,000 passenger cars, and freight and passenger terminals in every important center of population. In 1917 the operation and maintenance of these railroads cost about \$2,650,000,000, of which more than \$1,200,000,000 was paid for materials and supplies and \$1,450,000,000 for the wages of 1,800,000 employees who with their dependents constitute more than 8% of the entire population of the country.

The waterways operated by the Administration include all of the important coast-wise steamship lines that touch at Atlantic and Gulf ports, a lake-service line from Chicago and Milwaukee to Buffalo, the Cape Cod Canal, the New York Barge Canal, the Delaware and Raritan Canal, and the Mississippi and Warrior waterways.

Organization

The organization of the United States Railroad Administration and other war transportation agencies is shown in the chart which forms a part of this bulletin. It includes

THE DIRECTOR GENERAL OF RAILROADS to whom all of the officers and employees of transportation agencies operated by the government are responsible.

THE CENTRAL ADMINISTRATION including the Division of Law, the Division of Finance and Purchases, the Division of Operation, the Division of Traffic, the Division of Capital Expenditures, the Division of Labor, the Division of Public Service and Accounts and the Actuary to the Railroad Administration.

THE REGIONAL ADMINISTRATION including a separate organization for each of the seven regional groups of railroads.

ADVISORY COMMISSIONS AND COMMITTEES.

The function and personnel of each important division, section and committee of the Railroad Administration are given in the following text under appropriate heads. The present position of each official is shown in the left-hand column; and the railroad position previously held is shown in the right-hand column.

Central Administration

1. Director General of Railroads

913 I. C. C. Building

WILLIAM G. McADOO, *Director General*
OSCAR A. PRICE, *Assistant to the Director General*
M. BRICE CLAGETT, *Private Secretary to the Director General*
HENRY WALTERS, *Advisor on Finance, Purchases and New Equipment*, 618 I. C. C. Building

Secretary of the Treasury.
Publicity Director for 2nd Liberty Loans
Private Secretary to the Secretary of the Treasury

Chairman, Atlantic Coast Line

FUNCTION: To take possession and assume control of the transportation systems of the United States described in the President's Proclamation of December 26, 1917; and to operate these systems as a unit during the period of the war and for 21 months thereafter.

2. Assistant Director General of Railroads

904 I. C. C. Building

WALKER D. HINES, *Assistant Director General*
H. A. TAYLOR, *Assistant*
G. H. PARKER, *Assistant*

Chairman of the Board, Atchison, Topeka & Santa Fe
General Attorney, Erie
Assistant to Vice President, Delaware & Hudson

FUNCTION: To assist the Director General and represent him in his absence.

3. Division of Law

621 I. C. C. Building

JOHN BARTON FAYNE, *General Counsel*
R. WALTON MORE, *Assistant*

General Counsel, Chicago Great Western
Special Counsel, Associated Railway & Steamship Companies
Attorney, New York City
Attorney, Boston
Attorney, Associated Railway & Steamship Companies

CHARLES B. EDDY, *Assistant*
NATHAN MATTHEWS, *Special Counsel*
F. W. GWATHMY

FUNCTION: To deal with all legal questions that may arise in the process of adjusting relations between the railroad administration on the one side and carriers, shippers, national and state commissions and the general public on the other.

3a. Property Protection Section

706 Southern Railway Building

PHILIP J. DOHERTY, *Manager*

Chief Attorney, Division of Safety, Interstate Commerce Commission

FUNCTION: To enforce the federal law against theft from cars, stations, sidings and wharves; to prosecute cases of embezzlement from railroads; to enforce laws as to passenger ticket irregularities; to safeguard railroad property; and to take all necessary measures in cooperation with carriers to prevent loss from these causes.

3b. Claims Section

819 Southern Railway Building

JOHN H. HOWARD, *Manager*

FUNCTION: To have jurisdiction of loss and damage freight claims and their prevention.

3c. Committee on Compensation and Contracts

620 I. C. C. Building

CHARLES B. EDDY, *Chairman*
CHARLES DONNELLY, *Vice Chairman*
E. M. ALVORD
C. W. HILLMAN
E. C. NILES

Attorney, New York City
General Solicitor, Northern Pacific

President, National Association Railway & Utilities Commissioners

FUNCTION: To consider petitions of relinquished roads to be taken under federal control; to recommend to the Director General what action shall be taken thereon; and also to recommend what compensation shall be paid to each railroad under federal control and what modification of the standard form of contract shall be made.

4. Division of Finance and Purchases

619 I. C. C. Building

JOHN SKELTON WILLIAMS, *Director*

D. C. PORTEOUS, *Assistant*
J. B. SCOTT, *Treasurer*

Comptroller of the Currency and formerly President, Seaboard Air Line.
Secretary, Seaboard Air Line
Comptroller, Wabash.

FUNCTION: To coordinate and supervise railroad purchases of materials and supplies and to develop plans for meeting the financial requirements of the railroads, whether their needs relate to the taking up and renewal of obligations and the issuance of new securities, or to financial provision for betterments and additions.

4a. Finance Section Advisory Committee

6th Floor I. C. C. Building

FRANKLIN Q. BROWN, *Chairman*
FESTUS J. WADE,
FREDERICK W. SCOTT
JAMES N. WALLACE

Banker, New York.
President, Mercantile Trust Co., St. Louis.
Banker, Richmond, Va.
President, Central Union Trust Co., New York

FUNCTION: To assist the Director of the Division of Finance and Purchases in the financial work of the division.

4b. Purchasing Section Advisory Committee

704 Southern Railway Building

HENRY B. SPENCER, *Chairman*
SAMUEL PORCHER
GEORGE YEOMANS

Purchasing Vice-President, Southern
General Purchasing Agent, Pennsylvania
Purchasing Agent, New York, New Haven & Hartford.

FUNCTION: To assist the director of the Division of Finance and Purchases in the coordination and supervision of railroad purchases of equipment, materials and supplies.

4b 1. Procurement Section

Southern Railway Building

H. C. PEARCE, *Manager*
E. B. DAILEY, *Assistant Manager*

General Purchasing Agent, Seaboard Air Line
Assistant to the Director of Purchases, Southern Pacific

FUNCTION: To follow up and expedite the delivery of equipment ordered by the Railroad Administration, by keeping in close touch with the progress of the work at the different plants and by rendering such assistance as possible in the procurement and delivery of materials needed.

4b 2. Forest Products Section

Southern Railway Building

M. E. TOWNER, *Manager*

Purchasing Agent, Western Maryland

FUNCTION: To procure forest products used in railway work, such as ties, timbers, etc.

d. Advisory Committee on Insurance and Fire Protection

THEODORE H. PRICE, *Chairman*
R. H. BISSELL
CHARLES E. MATHER
D. R. McLENNAN
ALLEN M. SCHOFER

FUNCTION: To advise and assist in developing and applying measures for the prevention of fires and the reduction of the fire hazards in and on the property of railroads under the control of the United States Railroad Administration.

4d 1 Insurance and Fire Protection Section

CHARLES N. RANBO, *Manager*

FUNCTION: To deal with the prevention of fires through rigid inspection and assistance upon the observance of fire rules and regulations, and to have general charge of the adjustment of fire losses.

5. Division of Operation

1028 I. C. C. Building

CARL R. GRAY, *Director*
W. T. TYLER, *Senior Assistant Director*
J. H. KEYFE, *Assistant Director*
FRANK McMANAMY, *Assistant Director, Mechanical Department*
FRANK C. WRIGHT, *Assistant Director, Marine Department*

Chairman and President, Western Maryland
Assistant to Vice President, Northern Pacific
Assistant General Manager, Gulf, Colorado & Santa Fe
Chief Inspector, Locomotive Boilers, Interstate Commerce Commission.
Vice President, Bangor & Aroostook.

FUNCTION: To exercise general supervision over the operation of all transportation systems that have been taken over by the government.

5a. Car Service Section

718 18th Street

W. C. KENDALL, *Manager*
W. L. BARNES, in charge of
Chicago Office
E. H. DEGRUIT, JR.

A. C. GUTHEIM
C. B. PHELPS
G. F. RICHARDSON

J. A. SOMERVILLE

Asst. Managers

Superintendent Car Service, Boston & Maine
Superintendent Transportation, Chicago Burlington & Quincy
Chairman, Car Service Bureau, Interstate Commerce Commission
Attorney-Examiner, Interstate Commerce Commission
Superintendent Transportation, Louisville & Nashville
President and General Manager, Westmoreland Interurban
General Superintendent Transportation, Missouri Pacific

FUNCTION: To deal with all matters relating to car service including (a) the relocation of freight cars; (b) provision through the regional director on application of proper government authorities for preference in car supply and movement where more than ten cars are involved; and (c) the recommendation of embargo policies and exemptions as the needs of the government, seasonal requirements or other government circumstances may demand.

5a 1. Car Record Office

19th St. and Virginia Avenue

F. L. STILLMAN, *Manager*

Chief Clerk to Superintendent Transportation, Chicago & Northwestern

FUNCTION: To record the movements of carload shipments of United States Government freight.

5c. Mechanical Department

I. C. C. Building

FRANK McMANAMY, *Assistant Director in charge of Mechanical Affairs*
F. P. PFAHLER, *Chief Mechanical Engineer*
J. J. TATUM, *General Supervisor Car Repairs*

G. N. DeGUIRE, *General Supervisor of Equipment*
JOHN McMANAMY, *General Supervisor of Equipment*

Chief Inspector Locomotive Boilers, Interstate Commerce Commission
Master Mechanic, Baltimore & Ohio
Superintendent Freight Car Department, Baltimore & Ohio.

FUNCTION: To exercise supervision over all rolling stock and over the shops where repairs to this equipment are made; to prepare plans and specifications for new equipment; and to equalize the distribution of repair work to different shops and the distribution of motive power among the railroads.

5d. Committee on Standards

FRANK McMANAMY, *Chairman*

HENRY BARTLETT
H. T. BENTLEY

J. F. CARROLL

C. E. FULLER

F. F. GAINES

A. W. GIBBS

HOWARD INGERSOLL

J. E. O'BRIEN

JOHN PURCELL

F. P. PFAHLER

J. W. SMALL

J. J. TATUM

W. H. WILSON

E. A. WOODWORTH, *Secretary*

Chief Inspector Locomotive Boilers Interstate Commerce Commission
Chief Mechanical Engineer, Boston & Maine
Superintendent Motive Power & Machinery, Chicago & Northwestern
Assistant General Superintendent Motive Power, Baltimore & Ohio
Superintendent Motive Power & Machinery, Union Pacific
Mechanical Assistant, Regional Director, Southern Railway
Chief Mechanical Engineer, Pennsylvania Eastern Lines
Assistant to President, New York Central
Mechanical Superintendent, Missouri Pacific
Assistant to Vice President, Atchison, Topeka & Santa Fe
Master Mechanic, Baltimore & Ohio; and Mechanical Engineer, U. S. Railroad Administration
Superintendent Motive Power, Seaboard Air Line
General Supervisor Car Repairs, Baltimore & Ohio, and U. S. Railroad Administration
Assistant to Vice President, Northern Pacific

FUNCTION: To follow up standard plans for the purpose (1) of recommending changes which may be found necessary in standards already adopted as to cars, locomotives and the specialties used thereon; or (2) of developing additional standards.

5e. Inspection and Test Section

610 Southern Railway Building

C. B. YOUNG, *Manager*

Mechanical Engineer, Chicago, Burlington & Quincy

FUNCTION: To test and inspect materials and work in connection with the construction of standard locomotives and cars.

5f. Safety Section

715 Southern Railway Building

H. W. BELNAP, *Manager*

R. S. JARNIGAN, *Regional Supervisor Eastern Roads*
HARRY J. BELL, *Regional Supervisor Western Roads*
C. M. ANDERSON, *Regional Supervisor Southern Roads*

Chief, Bureau Safety, Interstate Commerce Commission
Assistant to General Safety Agent, New York Central
Safety Inspector, Chicago & Northwestern
Supervisor Safety, Nashville, Chattanooga & St. Louis

FUNCTION: To supervise safety work on all railroads.

5g. Fuel Conservation Section

629 Southern Railway Building, Washington

EUGENE McALLIFFE, *Manager*
 MAJ. EDWARD D. SCHMIDT, *Assistant Manager*
 ROBERT COLLETT, *Assistant Manager, New York*

H. C. WOODRIDGE, *Philadelphia, Regional Supervisor Allegheny Region*
 HARRY CLEWEL, *Knox, Regional Supervisor Southern Region*
 BERNARD J. FEENEY, *Atlanta, Regional Supervisor Pocahontas Region*
 FRANK P. ROSCH, *Chicago, Regional Supervisor Northwestern Region*
 LESLIE R. PYLE, *Chicago, Regional Supervisor Central Western Region*
 J. W. HARDY, *St. Louis, Regional Supervisor Southwestern Region*

Division Master Mechanic, Missouri Pacific
 Professor of Railway Engineering, University of Illinois
 Fuel Supervisor and Superintendent Locomotive Performance, St. Louis & San Francisco.
 Assistant to General Manager, Buffalo, Rochester & Pittsburgh
 Supervisor Fuel Economy, Chicago Rock Island & Pacific
 Traveling Engineer, Yazoo & Mississippi Valley
 Master Mechanic, El Paso & Southwestern
 Fuel Supervisor, Minneapolis, St. Paul and Sault Ste. Marie

FUNCTION: To secure information concerning the organization and methods in force on the various roads for the purchase and distribution of fuel and for fuel accounting with a view to the ultimate development of a standard type of organization and standard methods for the purchase and distribution of railroad fuel.

5h. Telegraph Section

625 Southern Railway Building

MARTIN H. CLAPP, *Manager*

Superintendent Telegraph, Northern Pacific

FUNCTION: To exercise supervision over telegraph and telephone lines belonging to railroads under federal control.

5i. Troop Movement Section

429 Homer Building

GEORGE HODGES, *Manager*

Chairman, Committee on Relations between Railroads
 American Railway Association

FUNCTION: To arrange for and supervise the movement of troops with their impediments, routing and provision of equipment.

5k. Operating Statistics Section

603 Southern Railway Building

W. J. CUNNINGHAM, *Manager*

James J. Hill Professor of Transportation, Harvard University
 Statistician, Comptroller's Office, Union Pacific

JOSEPH L. WHITE, *Assistant Manager*

FUNCTION: To standardize operating statistics; and to keep the Railroad Administration currently informed as to the results of railway operations as revealed by the statistics.

5l. Marine Section

629 Southern Railway Building

W. H. PLEASANTS, *Manager*
 E. J. HENRY, *Assistant*

President, Ocean Steamship Co.
 Western Traffic Manager, Lehigh Valley

FUNCTION: To supervise the operation of shipping under the control of the Director General; and to coordinate all other shipping (including that on the Great Lakes) and the railroads.

51 1 Coastwise Steamship Advisory Committee

165 Broadway New York City

L. J. SPENCE, *Chairman*
 E. R. RICHARDSON, *Assistant*
 J. H. JENKINS
 C. W. JUNGLEN
 G. W. DELONEY
 W. H. PLEASANTS
 H. H. RAYMOND
 H. B. WALKER

Director Traffic, Southern Pacific

President, Merchants & Miners
 Manager, Southern Pacific Steamship Line
 Vice President, Southern Steamship Co.
 President, Ocean Steamship Co.
 President, Clyde & Mallory Lines
 President and General Manager, Old Dominion Line.

FUNCTION: To supervise the operation of all coastwise lines under the control of the Railroad Administration.

5m. Federal Manager of Waterways

M. J. SANDERS, *Federal Manager, Mississippi and Warrior Waterways*

Manager, Leyland Steamship Lines

FUNCTION: To have charge of (1) the construction and acquisition for use upon the Mississippi river between St. Louis and New Orleans and for use upon the Warrior river between the Alabama coal fields and Mobile and in connection therewith for use upon the Mississippi sound and connecting waters between Mobile and New Orleans; and of (2) the operation of such equipment upon all such waters.

5n. Freight Traffic Control Committees

Washington Committee
 Southern Railway Building

E. T. WILCOX, *Chairman*
 O. H. HOBBS
 S. H. BILLINGS

General Freight Agent, Seaboard Air Line
 General Superintendent, Baltimore & Ohio
 Eastern Manager, Star Union Fast Freight Line

FUNCTION: To control freight at the gateways of Potomac Yard, Hagerstown, Md., and Hampton Roads, to divert and control all freight passing through these points, and to reroute and place embargoes as in the judgment of the Committee may be necessary to avoid congestion.

Cincinnati Committee
 Ingalls Building, Cincinnati

F. B. MITCHELL, *Chairman*
 G. KRAUSE
 B. ARNOLD
 J. B. FORD

General Superintendent, Baltimore & Ohio
 Assistant General Freight Agent, Cleveland, Cincinnati, Chicago & St. Louis
 Superintendent of Terminals, Louisville & Nashville
 General Freight Agent, Southern

FUNCTION: To control freight traffic passing Ohio river gateways at Cincinnati, O., Louisville, Ky., Cairo, Ill., Evansville, Ind., Paducah, Ky., and Portsmouth, Va.; to study this traffic with the view of detecting and remedying any movement which are out of line or proper route; and to decide upon the extent and duration of all embargoes affecting traffic passing through these gateways.

6. Division of Traffic

1023 I. C. C. Building

EDWARD CHAMBERS, *Director*
 C. B. BUXTON, *Assistant*

Vice President, Atchison, Topeka & Santa Fe
 Assistant Director Transportation, U. S. Food Administration.

ROBERT C. WRIGHT, *Assistant Director for Freight Matters*
 GERRIT FORT, *Assistant Director for Passenger Matters*

Traffic Manager, Pennsylvania Railroad, Eastern Lines
 Passenger Traffic Manager, Union Pacific

FUNCTION: To deal with all matters involving traffic relations between carriers and their patrons including (1) the classification of traffic; (2) the authorization in behalf of the Director General of any changes in tariff publication; i. e., the determination of charges; and (3) all commercial questions arising in connection with the transportation of passengers, freight, mail and express.

6a. Mail and Express Section
10th Floor I. C. C. Building

F. S. HOLBROOK, *Manager*

Vice President, Wells Fargo Express Co.

FUNCTION: To deal with all matters connected with the transportation of express traffic and mails.

6b. Agricultural Section
718 Eighteenth Street

J. L. EDWARDS, *Manager*

Traffic Manager, Atlanta Birmingham & Atlantic

FUNCTION: To look after the relations between the railroads and the Department of Agriculture in order to give all possible assistance to the general agricultural development of the country.

6c. Eastern Passenger Traffic Committee

C. M. BURT, *Chairman*
J. P. ANDERSON
R. H. WALLACE
J. W. DALY
J. D. McNAMARA
C. L. HUNTER, *Secretary*

General Passenger Agent, Boston & Maine
General Passenger Agent, Pennsylvania Eastern Lines
General Passenger Agent, Erie
Passenger Traffic Manager, Pittsburgh & Lake Erie
Passenger Traffic Manager, Wabash
Vice Chairman, Trunk Line Association

FUNCTION: To have charge under the Director of the Division of Traffic of all passenger traffic matters in official classification territory.

6d. Southern Passenger Traffic Committee

W. J. CRAIG, *Chairman*
S. G. HATCH
W. A. RUSSELL

Passenger Traffic Manager, Atlantic Coast Line
Passenger Traffic Manager, Illinois Central
Passenger Traffic Manager, Louisville & Nashville

FUNCTION: To have charge under the Director of the Division of Traffic of all passenger traffic matters in southern classification territory.

6e. Western Passenger Traffic Committee

P. S. EUSTIS, *Chairman*

Passenger Traffic Manager, Chicago, Burlington & Quincy

A. HILTON
W. J. BLAKE

Passenger Traffic Manager, St. Louis & San Francisco
Passenger Traffic Manager, Atchison, Topeka & Santa Fe

L. M. ALLEN

Passenger Traffic Manager, Chicago, Rock Island & Pacific

CHARLES S. FEE

Passenger Traffic Manager, Southern Pacific

FUNCTION: To have charge under the Director of the Division of Traffic of all passenger traffic matters in western classification territory.

6f. Ticket Standardization Committee

O. P. MCCARTHY

Traffic Manager, Baltimore & Ohio

FUNCTION: To devise an interchangeable ticket and recommend one standard passenger ticket for all roads and destinations

6g. Advertising Committee

A. L. CRAIG, *Chairman*

General Passenger Agent, Chicago & Great Western

FUNCTION: To formulate regulations respecting advertising by railroads under federal control.

6h. Inland Traffic Managers

Representing the Director General in Government Departments

H. M. ADAMS, *Chief Inland Traffic Service, War Department*

Vice President, Missouri Pacific

H. P. AXEWALT, *Manager Inland Traffic, Navy Department*

General Freight Agent, Atchison, Topeka & Santa Fe
Assistant General Traffic Manager, Erie

D. L. GRAY, *Manager Inland Traffic, Shipping Board*

Vice President, Chicago, Burlington & Quincy

C. E. SVENS, *Manager Inland Traffic, Food Administration*

Vice President, Chesapeake & Ohio

F. M. WHITTAKER, *Manager Inland Traffic, Fuel Administration*

Traffic Manager, St. Louis & San Francisco

J. A. MIDDLETON, *Manager Inland Traffic, Petroleum Section, Fuel Administration*

Vice President, Southern

T. C. POWELL, *Manager Inland Traffic, War Industries Board*

FUNCTION: To coordinate the inland traffic activities of the various Government departments under the supervision of the Director of the Division of Traffic.

6i. Committee on Consolidated Classification

R. M. COLLYER
R. C. FIFE
J. F. CROSSLAND
J. C. COLQUHITT

Chairman, Official Classification Committee
Chairman, Western Classification Committee
Chairman, Southern Classification Committee
Interstate Commerce Commission

FUNCTION: To consider all proposals received from various sections of the country suggesting changes in rules, descriptions, minimums or other uniform matter arising in the three classification territories; to pass on their adaptability for uniform treatment; and to report to the Director General recommending proposed changes.

Freight Traffic Committees

The Division of Traffic and the Division of Public Service & Accounting acting jointly have appointed three general committees and twenty-five district committees to consider freight traffic matters of carriers under federal control, report the facts to Washington and recommend action as to all such matters as are subject to publication in lawful tariffs. Each committee includes either two railroad traffic officers and one representative of the shipping public, or three railroad traffic officers and two representatives of the shipping public.

The three general committees have jurisdiction respectively over official, southern and western classification territories and over the several district committees. The district committees are authorized to investigate (1) freight traffic matters brought to their attention; (2) Those sent to them by general committees or from Washington; and (3) such matters as in their opinion require investigation and recommendation; and to report to the general committees unless otherwise instructed in particular instances.

6k. Eastern Freight Traffic Committee

143 Liberty Street, New York City

B. CAMPBELL, *Chairman*
E. P. BATES

Vice President, New York, New Haven & Hartford
Assistant Freight Traffic Manager, Pennsylvania Eastern Lines

W. C. MAXWELL

Vice President, Wabash

J. C. LINCOLN

Merchants Association of New York

G. M. FREER

Cincinnati Chamber of Commerce

C. C. McCAIN, *Secretary*

6kl. District Freight Traffic Committees—Eastern Territory
New England District

G. H. EATON, *Chairman, Boston*
R. VAN UMMERSON, *Boston*
W. H. CHANDLER, *Boston*

FUNCTION: To advise the Director of Public Service and Accounting with respect to technical matters of accounting procedure.

9b. Auditing Section

1124 18th Street

J. W. ROBERTS, *Auditor*

District Accountant, Interstate Commerce Commission

FUNCTION: To care for receipts and disbursements of all monies (a) appropriated to the Railroad Administration by Congress, (b) placed in the revolving fund or (c) remitted by the treasurers of the several carriers on call of the Director General.

9c. Traffic Section

11th Floor I. C. C. Building

GEORGE T. ATKINS, JR., *Manager*

Traffic Manager, Shreveport Chamber of Commerce

FUNCTION: To represent shippers in the Traffic Division of the Railroad Administration.

9d Short Line Section

11th Floor I. C. C. Building

E. C. NILES, *Manager*

President, National Association of Railway Commissioners

FUNCTION: To see that short line roads not under government control receive a proper allotment of cars, a fair proportion of business, and a fair division of joint rates.

10. Actuary to the Railroad Administration

1005 I. C. C. Building

THEODORE H. PRIE, *Actuary*

Banker, New York City

FUNCTION: To compile and analyze statistics and make reports concerning various economic problems connected with the functions of the Railroad Administration referred to him by the Director General or by members of the staff. Also to direct the work of the Bureau for Suggestions and Complaints, to which the public have been invited to address letters criticizing or commending the service rendered by the railroads, or containing suggestions for the improvement of this service.

Regional Administration

Regional Groups of Railroads

For purposes of operation the Director General has classified the railroads of the United States in 7 regional groups, as follows:—

EASTERN RAILROADS: The railroads in that portion of the United States North of the Ohio and Potomac rivers and East of Lake Michigan and the Indiana-Illinois state line (excepting those railroads which are classified as Allegheny railroads and Pocahontas railroads); and also those railroads in Illinois extending into that state from points East of the Indiana-Illinois state line. The railroads of New England are grouped in the *New England sub-district* and the railroads of central and southern Ohio-Indiana in the *Ohio-Indiana sub-district*.

ALLEGHENY RAILROADS: The principal railroads of Pennsylvania, New Jersey, Delaware and Maryland, including the Pennsylvania lines East of Pittsburgh, the Baltimore and Ohio East of Pittsburgh, the Reading, and others.

POCAHONTAS RAILROADS: The principal railroads of Virginia and West Virginia, including the Chesapeake and Ohio West of Louisville, Kentucky, Columbus, O., and Cincinnati, O., the Norfolk and Western and the Virginian, and the terminals and harbor facilities of all lines reaching Hampton Roads.

SOUTHERN RAILROADS: The railroads in that portion of the United States South of the Ohio and Potomac rivers, and East of the Mississippi river except the Chesapeake & Ohio, Norfolk and Western, and Virginian railroads; and also those railroads in Illinois and Indiana extending into those states from points South of the Ohio river.

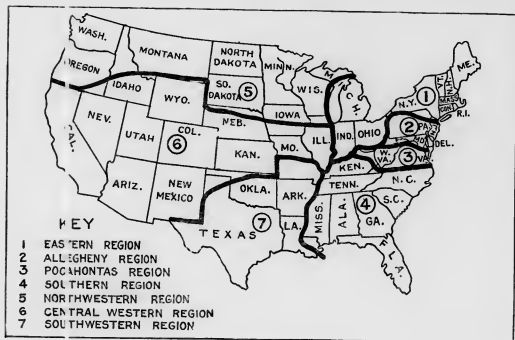

NORTHWESTERN RAILROADS: The railroads in the Northern part of the territory between Chicago and the North Pacific coast, including the Chicago and Northwestern, the Chicago, Milwaukee and St. Paul, the Great Northern, the Northern Pacific and others. The railroads reaching the Pacific coast in the western part of this region are grouped in the *Puget Sound sub-district*.

CENTRAL WESTERN RAILROADS: The railroads in the central part of the territory between Chicago and the Pacific coast, including the Atchison, Topeka and Santa Fe, the Chicago, Rock Island and Pacific (in part), the Chicago, Burlington and Quincy, the Southern Pacific lines (in part), the Union Pacific, the Denver and Rio Grande, and others. The railroads reaching the Pacific coast in the western part of this region are grouped in the *Pacific coast sub-district*.

SOUTHWESTERN RAILROADS: The railroads running from St. Louis to the southwest including the Missouri Pacific, the Missouri, Kansas and Texas, the Rock Island (in part), the Frisco, and others. The railroads in the state of Texas are grouped in the *Texas sub-district*.

A complete list of the railroads included in each regional and district group is given below under heading "Federal Managers".

The approximate boundaries of each region and district are shown in the accompanying regional map.

Organization

The Regional Administration for each of the seven regions includes: (1) a regional director appointed by the Director General to operate all of the railroads under government control in that region; (2) a general staff appointed by the regional director to assist him in his work; (3) a district director to supervise the railroads in each sub-district; (4) a federal manager for each trunk system (including the smaller lines physically connected with it); and (5) a general manager for each individual road.

Functions of Regional Directors

In his instructions to regional directors issued on February 4, 1918, the Director General defined their functions as follows:

"Broadly speaking I wish to give you power to direct railroad operations in your territory so as to handle traffic with the least congestion, the highest efficiency and the greatest expedition. * * I have put upon you responsibility for the entire operating situation.

There are several matters involving broad questions of public policy concerning which I wish you to make careful studies and report to me your recommendations.

(1) To what extent, if at all, should additional passenger service be discontinued in order to save coal, labor, locomotives and shop capacity for freight service?

(2) I wish you also to make careful study of the extent to which (a) freight solicitation should be discontinued or diminished and freight and passenger agencies, freight offices, ticket offices, etc., discontinued or consolidated; (b) the extent to which traffic officials soliciting or otherwise should be transferred to other service and to what other service they should be assigned; and (c) the extent to which, if at all, any portion of these forces should be released from service.

(3) I wish you also to make a study of (a) the extent to which duplications of service can be avoided both passenger and freight; (b) the extent to which fast freight service can be discontinued or slowed down; (c) the extent to which less-than-carload service can be consolidated or diminished; with reasonable consideration for public convenience.

(4) I would like to have your views as to the extent the making of purchases can be unified either for the entire country or for the separate regions or for parts thereof, accompanying it with a statement of the advantages which you think would result.

ORGANIZATION OF WAR TRANSPORTATION CONTR

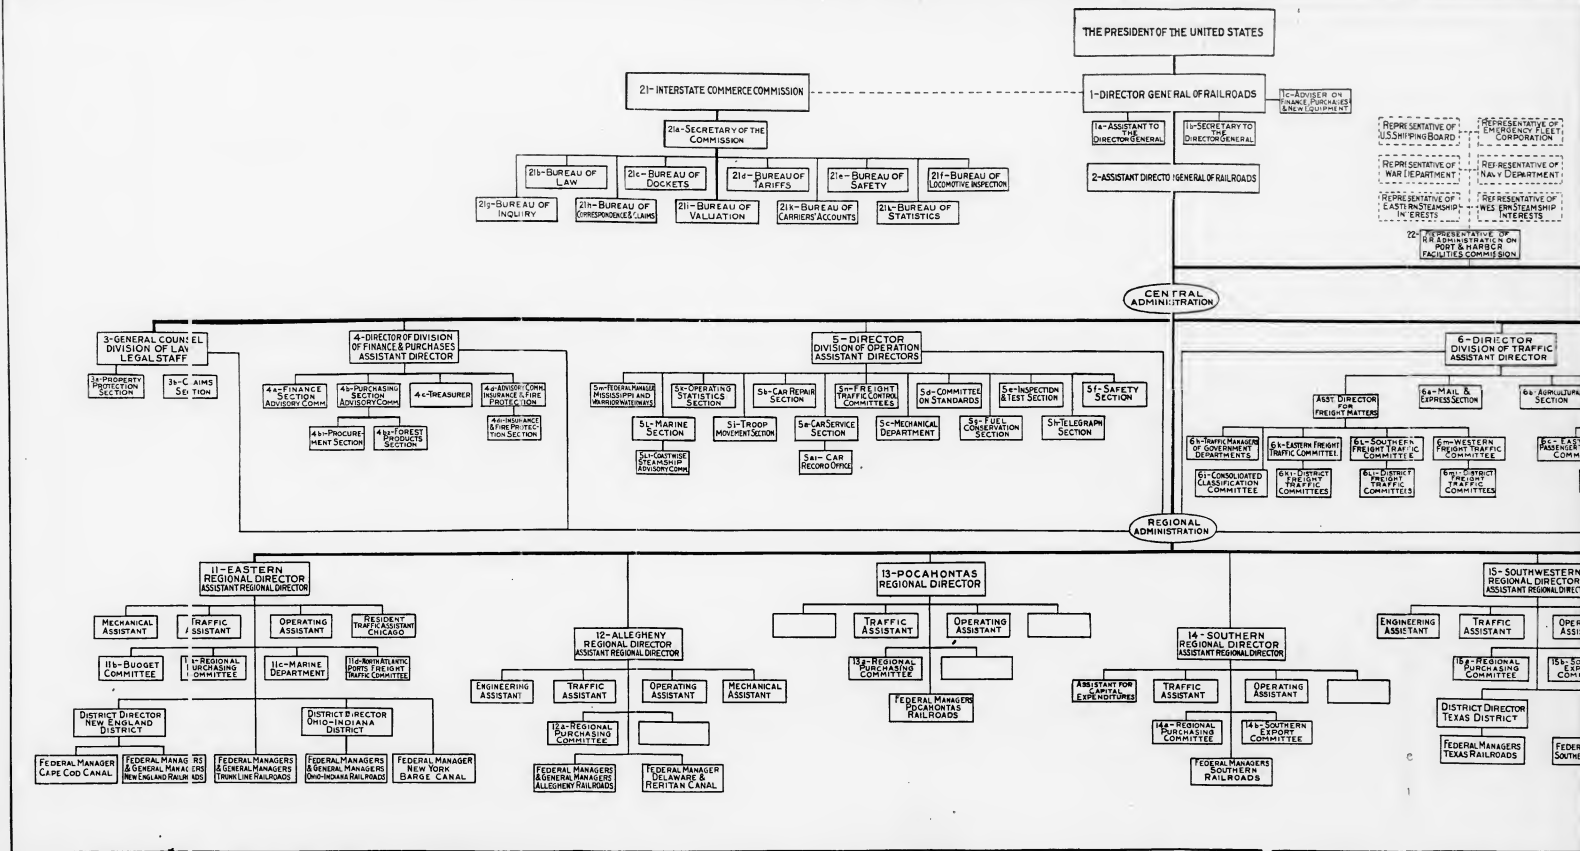

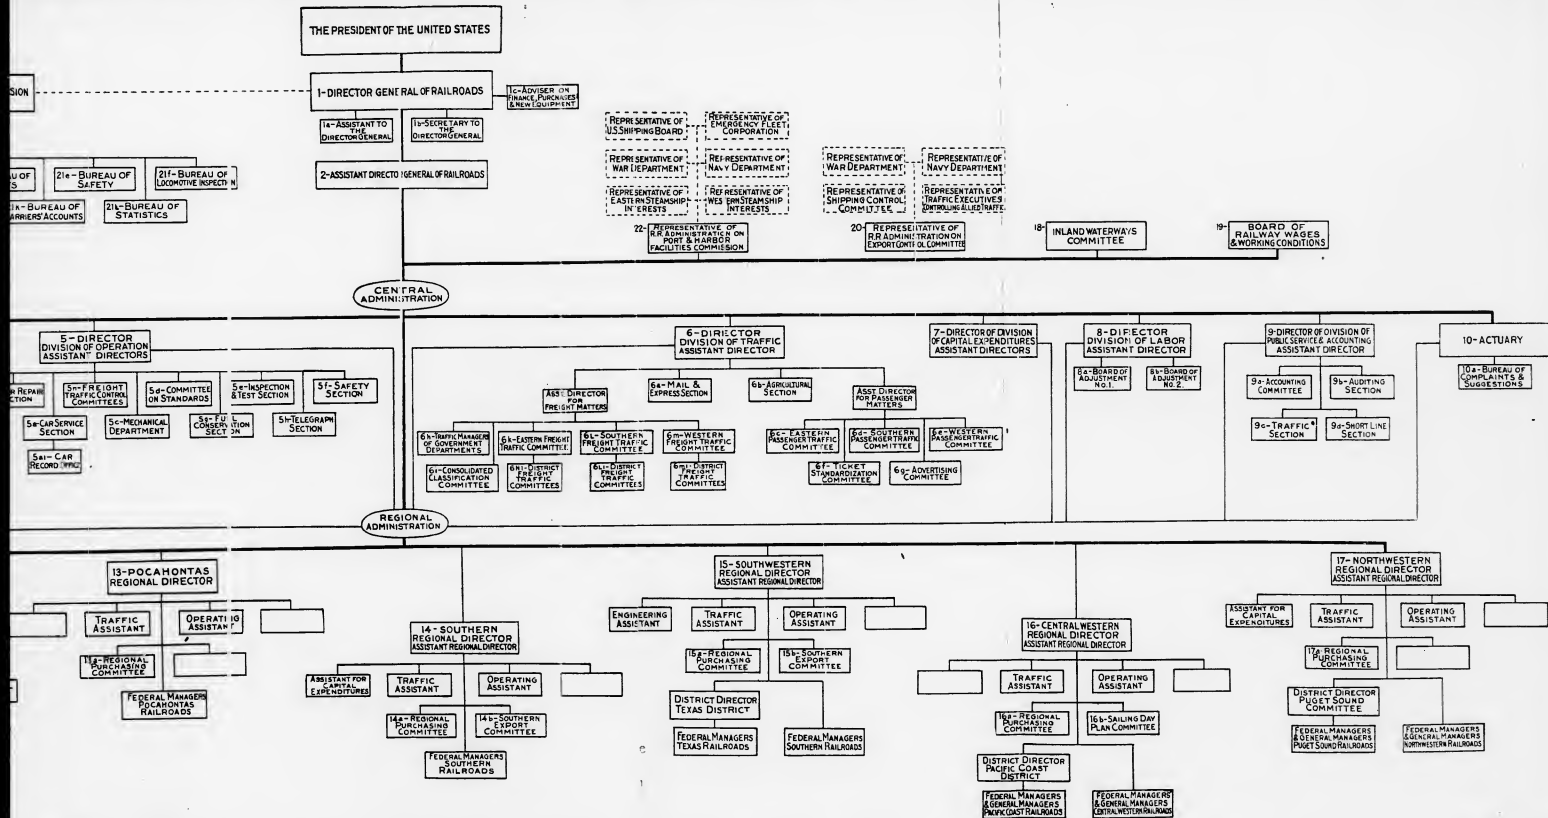

Chart and accompanying text prepared for the Railroad Committee of the Chamber of Commerce of the United States of America by Richard Waterman, Secretary of the Committee. Revised to August 10, 1918.

ORGANIZATION OF WAR TRANSPORTATION CONTROL

(5) I would also like to have your report on the extent to which standardization may be effected in your region on the railroads in your territory (a) with respect to locomotives—the various types which will be required to effect the best standardization; and (b) freight cars, open and box cars, and the various types which will be best adapted for use in your territory. Your recommendation should be made in reference to the same standards throughout the United States except in so far as local conditions can make specific types or designs desirable to meet the peculiarities of such local conditions.

(6) In general I shall be glad to have you make a study of the extent to which various classes of operating expenses can be curtailed or eliminated on account of present conditions of government possession and control.

(7) In dealing with this whole subject it is of course important for you to view the matter and to get the various railroad executives of railroads in your jurisdiction to view the matter from the entirely new standpoint that all the railroads now constitute a single system to be operated so as to secure the maximum of transportation with the minimum of waste; and that the fact that a readjustment will mean that a particular railroad will lose certain sorts of traffic must be disregarded as it is not a sufficient reason why the readjustment should not be made in other respects it is in the public interest."

Functions of General Staff

The general staff appointed by each regional director to assist him in his work usually includes the following:

TRAFFIC ASSISTANT: To aid the regional director in the administration of the traffic departments of all roads included in his region; and to advise and cooperate with general traffic committees and district traffic committees having jurisdiction over the territory included in this region.

OPERATING ASSISTANT: To aid the regional director in the administration of the operating departments of all roads included in his region.

MECHANICAL ASSISTANT: To aid the regional director in the administration of the motive power departments of all roads included in his region.

ENGINEERING ASSISTANT or ASSISTANT FOR CAPITAL EXPENDITURES: To advise with the regional director in regard to the feasibility and cost of proposed additions and improvements involving capital expenditures.

11. Eastern Region

Grand Central Terminal, New York City

ALFRED H. SMITH, *Regional Director*

H. W. BURNHAM, *Secretary*

A. T. HARDIN, *Assistant Regional Director*

A. J. STONE, *Operating Assistant*

FRANCIS LA BAU, *Traffic Assistant*

G. H. INGALLS, *Resident Traffic Assistant, Chicago*

H. L. INGERSOLL, *Mechanical Assistant*

President, New York Central

Vice President, New York Central

Vice President, Erie

Traffic Manager, New York Central

Traffic Manager, New York Central west of Buffalo.

Assistant to President, New York Central

FUNCTION: To direct the operation of all railroads included in the Eastern Region.

11a. Regional Purchasing Committee

S. B. WIGHT, *Chairman*

A. W. MUNSTER

W. G. THELUS

General Purchasing Agent, Michigan Central

Purchasing Agent, Boston & Maine

Purchasing Agent, Pennsylvania western lines

FUNCTION: To standardize and consolidate purchases of every kind that may admit of such treatment, and to submit to other regional committees and to the director of purchases in Washington as information and for criticism full statistics as to cost prices of materials used in railroad operation so that these prices can be carefully compared and checked.

11b. Budget Committee

New York City

FRANCIS LEE TUART, *Chairman*

A. T. HARDEN

A. C. SHAND

H. A. LANE

Consulting Engineer

Vice President, New York Central

Chief Engineer, Pennsylvania

Assistant Engineer of Surveys, Baltimore & Ohio

FUNCTION: To study the plans for additions and betterments (including equipment) and for road extensions proposed by railroads in the Eastern Region, and to report from time to time on the need for additional facilities.

11c. Marine Department

W. G. POLLACK, *Deputy Marine Director, New York Harbor*G. A. TOMLISON, *Federal Manager, New York and New Jersey Canals*A. K. MORRIS, *Director, Tide Water Coal Traffic*

FUNCTION: To coordinate the work of the Marine Section of the United States Railroad Administration with related activities of the United States Fuel Administration and of the port authorities of New York Harbor.

SCOTT, Houston, Texas, San Antonio & Aransas Pass, Gulf Coast Lines, Southern Pacific Lines in Texas, and Louisiana (excluding Houston, East & West Texas Railway, & Houston & Texas Central), Galveston, Harrisburg & San Antonio, Louisiana Western, Morgan's Louisiana & Texas Railroad & Steamship, New Orleans Texas & Mexico, St. Louis Brownsville & Mexico, Texas & New Orleans	President, Southern Pacific Lines

16. Central Western Region

Chicago

HALE HOLDEN, *Regional Director*
H. A. SCANDRETT, *Traffic Assistant*
B. B. GREER, *Assistant Regional Director*

President, Chicago Burlington & Quincy
Assistant Director, Traffic, Union Pacific
Vice President and General Manager, Colorado Southern

FUNCTION: To direct the operation of all railroads included in the Central Western Region.

16a. Regional Purchasing Committee

L. N. HOPKINS, *Chairman*
M. J. COLLINS

Purchasing Agent, Chicago Burlington & Quincy
General Purchasing Agent, Atchison, Topeka & Santa Fe

FUNCTION: (See Eastern Region.)

16b. Sailing Day Plan Committee

GEORGE MORTON, *Chairman*

F. H. MANTER

GEORGE WHITT

C. W. AXTELL
W. W. HALE

Assistant General Freight Agent, Chicago, Burlington & Quincy
Assistant General Freight Agent, Atchison, Topeka & Santa Fe
Assistant General Freight Agent, Chicago, Rock Island & Pacific
Assistant General Freight Agent, Union Pacific
E. C. S. A., Southern Pacific

FUNCTION: To secure from railroads in the Central Western region such information and reports concerning merchandise traffic as may be needed to aid the Railroad Administration in developing a comprehensive plan for L. C. L. freight sailing days, i. e., a plan for loading straight cars to destinations now served through transfers, and forwarding these cars as often as the business demands. (Similar committees will be appointed for each of the other regions.)

District Director

WILLIAM SPROULE, San Francisco, District Director, Pacific Coast Sub-District (including all lines west of Ogden and Salt Lake City, Utah, Albuquerque, N. Mex., & El Paso, Tex. and south of Ashland, Oregon.)

President, Southern Pacific

Federal Managers

W. G. BIERD, Chicago, Chicago & Alton, Chicago, Peoria & St. Louis.

President, Chicago & Alton

C. G. BURNHAM, Chicago, Chicago, Burlington & Quincy, Quincy, Omaha & Kansas City

General Manager, Minneapolis, St. Paul & Sault Ste. Marie

W. P. KENNEY, St. Paul, Great Northern

President, Great Northern

S. G. STRICKLAND, Chicago, Chicago & Northwestern

General Manager Lines east, Chicago & Northwestern

A. W. TRENHOLM, St. Paul, Chicago, St. Paul, Minneapolis & Omaha, Terminals of all railroads at Minneapolis & St. Paul, including Minnesota Transfer

Vice President and General Manager, Chicago, St. Paul, Minneapolis & Omaha

General Managers

W. H. BREMNER, Minneapolis, Minneapolis & St. Louis.

President, Minneapolis & St. Louis.

A. J. DAVIDSON, Portland, Ore., Spokane, Portland & Seattle

General Superintendent, Spokane & Inland Empire, & Spokane, Portland & Seattle

F. E. HOUSE, Duluth, Duluth & Iron Range, Duluth Missabe & Northern

President and General Manager, Duluth & Iron Range

J. P. O'BRIEN, Portland, Ore., Oregon-Washington Railroad & Navigation Co.

Vice President and General Manager, Oregon-Washington Railroad & Navigation Co.

W. L. PARK, Chicago, Chicago Great Western

Vice President, Chicago Great Western

Terminal Managers

J. H. O'NEILL, Seattle, Terminal Manager, Puget Sound Terminals	General Superintendent, Great Northern
H. A. KENNEDY, St. Paul, Terminal Manager, St. Paul & Minneapolis Terminal, including Minnesota Transfer	Vice President, Minnesota Transfer
J. H. BRINKERHOFF, Chicago, Terminal Manager, Chicago District	General Superintendent, Belt Railway, of Chicago

Advisory Commissions and Cooperating Agencies

The Advisory Commissions and Cooperating Agencies which appear on the organization chart include:—the Inland Waterways Committee, the Board of Railway Wages and Working Conditions, the Port & Harbor Facilities Commission and the Exports Control Committee.

17. Committee on Inland Waterways

601 G Street

MAJ. GEN. W. M. BLACK, *Chairman*
WALTER S. DIKEY
G. A. TOMLINSON
CALVIN TOMPKINS
M. J. SANDERS
GEN. CHARLES KELLER, *Secretary*

FUNCTION: To make a prompt investigation and to report as soon as possible a definite plan describing the extent to which and the manner in which additional use may be made of inland waterways for the economical and expeditious movement of the traffic of the country so as to relieve or supplement the railways under existing war conditions. While the entire waterway and transportation system is to be scrutinized only those waterways that will effectively afford national relief will be included in plans presented.

This committee has submitted several reports recommending steps that should be taken by the Railroad Administration with a view to relieving the railroads of freight that can be carried better by water. On the basis of these reports the Director General has assumed control of certain internal waterways and has appointed the following officials to operate them:—

Cape Cod Canal

FUNCTION: To have charge of (1) the construction and acquisition of equipment for use on the Cape Cod Canal which connects Massachusetts Bay with Buzzards Bay and forms the first link in the proposed system of coastal internal waterways which will ultimately extend from Boston to Galveston; and (2) the operation of such equipment on this Canal.

G. A. TOMLINSON, *Federal Manager*
New York & New Jersey Canals

FUNCTION: To have charge of (1) the construction, and acquisition of equipment for use on the New York Barge Canal running across the state of New York from Buffalo to the Hudson River and connecting the Great Lakes with New York Harbor, and the Delaware and Raritan Canal running from Raritan Bay to the Delaware River and connecting New York Harbor with Delaware Bay; and (2) the operation of such equipment on these Canals.

M. J. SANDERS, *Federal Manager*,
Mississippi and Warrior Waterways

Manager, Leyland Steamship Lines

FUNCTION: To have charge of (1) the construction and acquisition of equipment for use upon the Mississippi river and upon the Warrior river between the Alabama coal fields and Mobile and in connection therewith for use upon the Mississippi Sound and connecting waters between Mobile and New Orleans; and (2) the operation of such equipment upon all such waters.

Lehigh Valley Transportation Co.

FUNCTION: To operate the lake-line service, established by the Railroad Administration between Chicago, Milwaukee, and Buffalo, in order to relieve the car situation as much as possible. This steamship line serves all eastern trunk lines over a common terminal at Buffalo.

18. Board of Railway Wages and Working Conditions

812 Southern Railway Building

G. H. SINES, *Chairman*
F. F. GAINES, *Vice Chairman*
J. J. DERMODY
C. E. LINDSAY
W. E. MORSE

A. O. WHARTON

Vice President, Brotherhood of Railroad Trainmen
Superintendent Motive Power, Central of Georgia
Fourth Vice President, Order Railroad Telegraphers
Division Engineer, New York Central
Vice President & General Manager, Denver & Salt Lake
President, Railroad Employees' Department, American Federation of Labor

FUNCTION: To hear and investigate matters presented by railroad employees or their representatives affecting (1) inequalities as to wages and working conditions whether as to individual employees or classes of employees, (2) conditions arising from competition with employees in other industries, and (3) rules and working conditions for the several classes of employees either for the country as a whole or for different parts of the country; and to hear and investigate other matters affecting wages and conditions of employment referred to it by the Director General. This Board is solely an advisory body and is required to submit its recommendations to the Director General for his determination.

19. Port and Harbor Facilities Commission

National Theatre Building, Washington, D. C.

EDWARD F. CARRY, *Chairman*,
Representing the U. S. Shipping Board

Director of Operations, U. S. Shipping Board

S. M. FELTON, *Vice Chairman*,
Representing the War Department
CAPT. A. C. HODGSON, U. S. N., Representing Navy Department

Director General, U. S. Railroads in France

T. C. POWELL, Representing Railroad Administration

Manager Inland Traffic, War Industries Board

ADMIRAL H. H. ROUSSEAU, U. S. N., Representing the Emergency Fleet Corporation

President, American-Hawaiian Steamship Co.

GEORGE S. DEARBORN, Representing Eastern Steamship Interests

Vice President, W. R. Grace & Co.

J. H. ROSSETER, Representing Western Steamship Interests

FUNCTION: To take charge of and be responsible for the construction of new port facilities and the extension of existing facilities for vessels which the Shipping Board or the Emergency Fleet Corporation may authorize and make appropriations for; the Commission being authorized in carrying out such work to arrange and negotiate contracts and to utilize such agencies of the Shipping Board or the Emergency Fleet Corporation as may be available, and where practicable to utilize any Government agency that will be helpful in the situation.

20. Exports Control Committee

Washington, D. C.

GEORGE D. OGIEN, *Chairman*,
Representing the Railroad Administration

General Freight Agent, Pennsylvania

MAJ. GEN. G. W. GOETHALS, U. S. A., Representing the War Department

REAR ADMIRAL C. J. PEOPLES, U. S. N., Representing the Navy Department

P. A. S. FRANKLIN, Representing the Shipping Control Committee

D. W. COOK, Representing the Traffic Executives Controlling Allied Traffic

Vice President, Erie

FUNCTION: (1) To inform itself as to (a) the probable amount of freight which must be exported for the prosecution of the war; (b) how this war freight can best be routed to the various ports; (c) how much of other essential traffic has to be handled; and (d) the amount of local traffic necessary for each port; (2) To select the port to which specified freight shall be transported for shipment overseas for use of the War and Navy Departments, the allied governments, and others; (3) To decide the distribution of the combined amount of all exports as between the various ports so as to facilitate its handling at, and to avoid congestion in, any one port.

NOTE: Hereafter all embargoes both for export and direct domestic shipment are to be applied at the point of origin, and no equipment will be tied up with embargoed freight, nor will embargoed freight be dumped at a seaport dock to await ship space. Control of export traffic will thus start at the factory shipping door.

Interstate Commerce Commission

The Interstate Commerce Commission retains all of the powers conferred upon it by the Act to Regulate Commerce and Acts supplementary thereto excepting the power to suspend rates initiated by the President. This is clearly shown in Section 10 of the Railroad Control Act which provides "that carriers while under federal control shall be subject to all laws and liabilities as common carriers whether arising under state or federal laws, or at common law, except in so far as may be inconsistent with the provisions of this Act or any other act applicable to such federal control or with any order of the President".

The Act provides in addition "that during the period of federal control whenever in his opinion the public interest requires, the President may initiate rates, fares, charges, classifications, regulations and practices by filing the same with the Interstate Commerce Commission, which said rates, etc., shall not be suspended by the Commission pending final determination"; but even when the President has exercised this power the Commission must upon complaint determine whether the rates initiated are in violation of the Act to Regulate Commerce.

The Railroad Control Act gives to the Interstate Commerce Commission, however, a measure for determining the reasonableness of rates as a whole, namely, that it shall take into consideration the certificate of the President that it is necessary to increase revenues in order to pay "railway tax accruals other than war taxes, net rents for joint facilities and equipment, and compensation to the carriers", in addition to the expenses of federal control and operation fairly chargeable to railway operating expenses. The President under the express terms of the Railroad Control Act can put into effect only "just and reasonable rates" and the Commission is the final arbiter on this question.

21. Interstate Commerce Commission

2nd Floor I. C. C. Building

WINTHROP M. DANIELS, *Chairman*,

EDGAR E. CLARK

JAMES S. HARLAN

CHARLES C. MCCORD

BALTHASAR H. MEYER

HENRY C. HALL

CLYDE B. AITCHISON

ROBERT W. WOOLEY

GEORGE W. ANDERSON

GEORGE B. MCGINTY, *Secretary*

FUNCTION: To exercise the powers given the Commission by the Act to Regulate Commerce and Acts supplementary thereto subject to such modifications as are obviously necessary in time of war; and in accordance with provisions of the Railroad Control Bill to act as adviser to the Director General of Railroads in all matters that come within the province of the Commission.

21a. Office of the Secretary

Interstate Commerce Building

GEORGE B. MCGINTY, *Secretary*

A. HOLMEAD, *Assistant Secretary*

T. A. GILLIS, *Assistant to the Secretary*

W. M. LOCKWOOD, *Chief Clerk and Purchasing*

Agent

FUNCTION: To serve as the chief administrative and executive officer of the Commission to whom all correspondence should be addressed.

2lb. Bureau of Law

P. J. FARRELI, *Chief Counsel*

FUNCTION: To advise the Commission in all legal matters; and to represent the Commission in all court cases involving orders of the Commission in formal proceedings.

2lc. Bureau of Dockets

JAMES C. CALMALT, *Chief Examiner*
F. C. STRATTIN, *Chief, Bureau of Dockets*

FUNCTION: To handle all material pertaining to formal proceedings arising from complaints involved in rates, fares, charges, classifications, regulations or practices of common carriers subject to the Act.

2ld. Bureau of Tariffs

J. M. JONES, *Chief*

FUNCTION: To receive and examine all tariffs specifying rates, rules, and regulations governing interstate transportation.

2le. Bureau of Safety

W. P. BORLAND, *Chief*

FUNCTION: To enforce the safety appliance laws.

2lf. Bureau of Locomotive Inspection

A. G. PACK, *Chief*

FUNCTION: To enforce the locomotive inspection laws.

2lg. Bureau of Inquiry

J. J. HICKEY, *Chief*

FUNCTION: To investigate alleged violations of the criminal sections of the Act to Regulate Commerce and the Elkins Act.

2lh. Bureau of Correspondence and Claims

ROBERT E. QUIRK, *Chief*

FUNCTION: To handle all correspondence relating to formal complaints involving rates, fares, charges, classifications, regulations or practices of common carriers subject to the Act.

2li. Bureau of Valuation

C. A. PROUTY, *Director*

FUNCTION: To value the property of common carriers under the so-called Valuation Act.

2lk. Bureau of Carriers' Accounts

ALEXANDER WILEY, *Acting Chief*

FUNCTION: To prescribe uniform methods of accounting for carriers' accounts; and to examine the books of carriers in order to ascertain whether they are kept in accordance with the prescribed rules and classifications.

21l. Bureau of Statistics

M. O. LORENZ, *Chief*

FUNCTION: To secure from individual carriers the monthly, annual and special reports required by the Commission; and to compile statistical returns based upon these reports.

GEORGE A. POST, *Chairman,*
Railroad Committee of the
Chamber of Commerce of the United States.

RICHARD WATERMAN, *Secretary.*

August 10, 1918.

Extra copies of this bulletin can be purchased from the General Secretary, Chamber of Commerce of the United States, Riggs Building, Washington, D. C., at seven cents each, postpaid. Of the chart in its large original form, which measures approximately 23 by 50 inches, blue prints will be made. The charge for these blue prints will be thirty-five cents each, postpaid.
